

# 1970 MGB ROADSTER

- Notes from the seller:

The car is 1970, in lovely condition, never taken out in the rain, so no signs of rust anywhere. I bought car nearly 25 years ago, and it was only used for the occasional summer trip with my wife. Over the last several years, it has sadly not been used much as it is not as much motivation to my wife as it is to me. I have only been taking it out for the occasional run around town to keep the engine in trim, and averaging only around 20 miles per year doing so. This is why the mileage on the car is only around 10500 miles, and everything is in such good condition.

I've had fitted a Kenlow fan, electronic ignition, also has a full Tonneau. We are both in very senior years now, with some health concerns, so as much as I will miss seeing it the garage, I now need to be sensible and let it move on to another loving home. We live in Bishopston in Bristol should anyone need to view it and be taken for a run.

It has always been serviced and looked after by two local garages with histories of servicing classic cars. one of them saying its the best he's seen. A near neighbour used to have Millets store in Bristol, which dealt in car parts, and rates it very highly saying it is worth at least £16,000 which is what I am advertising it for.

**£16,000**
